Serial Number: 10/654,552	
Filed: 3 September 2003	Art Unit: 3746
Title: Combination Sight Glass, Strainer	
and Orifice	Examiner: Vikansha S. Dwivedi

AMENDMENT

The Applicant submits the following Amendment in response to the Office Action mailed 26 January 2006 in accordance with 37 CFR § 1.111.

IN THE ABSTRACT

Replace the first paragraph of the Abstract with the following paragraph:

A sight glass block for inspecting oil flow through a scavenge line for an oil separation system in a compressor comprises a combination of a sight glass for inspecting the oil flow, a strainer for cleaning the oil flow and an orifice for metering the oil flow in a single integrated component.

REMARKS

Claim 1 is pending in this Application. The Examiner has indicated that Claim 1 is allowable and that the Application is in condition for allowance but for the language and format of the Abstract, to which the Examiner objects. The Applicants herein submit a replacement paragraph for the Abstract that better complies with the requirement of 37 CFR § 1.72(b). The replacement paragraph better states the nature and gist of the invention disclosed in the application. Underlined and strikethrough text indicate additions and deletions to the language of the original paragraph in the attached Appendix.
